

## Greetings!

We are the **TM Group**, metal sector, which specializes in the distribution of a wide selection of metals. This includes copper alloys, brass, bronze in various forms: round and flat bars, tubes, plates and sheets, strips and wires, ingots and bushings, custom castings. We always strive to be reliable, competitive and efficient. Regular deliveries from the largest metallurgical companies in Germany and Italy allow us to have a wide range of metals in stock and to respond quickly to the current demands of our customers.

When working with us, you can count on fast processing and delivery of your order and reliable quality - all our products have certificates.

Also, if you need a special non-standard metal and cannot find it, you can contact us. We have a large base of reliable suppliers in all areas of metallurgy, which enables us to supply a wide range of metal products for all purposes.

Best regards

**TM Group d.o.o.**
